

March 19 2015

Dear Harborside Owners:

In the last Trustee meeting, it was brought to the attention of homeowners that Bart Jones' term on the HDC had expired on January 1st of this year.

Section III, subsection A states "The HDC will consist of three members, one of whom will be a Trustee. **Anyone wishing to be a member of the HDC will need to request consideration in a written letter (or email) to the Trustees through the Management Company.**

Members must be a watercraft owner and will be appointed by the Trustees for staggered three-year terms. The Trustee member will be appointed by the Trustees..."

Currently, Bart Jones is the only homeowner who has expressed interest in remaining on the HDC. If any homeowner who has a watercraft (kayak, paddle board, dinghy or boat) on the floats wishes to be considered for the open position on the HDC, please submit your request for consideration in writing to Lesley Management prior to April 1, 2015.

Additionally, the Trustees always welcome volunteer efforts to assist in the improvement of Harborside. The Trustees will be working in the coming months to review the needs of the community and the various committees that have been constituted over the years. Should you wish to serve on any of the committees, please submit a written request to Lesley Management for the Trustees' consideration.

Thank you, Board of Trustees

Dear Harborsiders

On Friday, March 20th, Paradise Construction will be installing foam insulation in portions of the B Building. This will entail parking a large truck in front of the building, which may impact access in and out of the lower parking lot. If you need to use your vehicles you should move it from the lot by 8:00AM.

Thank you, Harborside Condominium Board of Trustees

Dear Harborsiders,

Paradise Construction is planning to resume work on the water line in the entry drive beginning Monday, March 23. Please do not park along the ledge at the right side of the entry drive. Also, please do not park in front of the C Building. passage adjacent to the construction work will be limited.

Harborside Board of Trustees
